ABOUT US

Microtech specialises in design & Development of Plastic Injection moulds, Press tools & Jigs & Fixtures and Production all types of Injection moulded, blow moulded components and Sheet metals.

Established in 1987 at Palakkad, now we have extended to 3 units with all modern Tool Room machineries and fully automated injection moulding, Blow moulding machines & power press.

OUR SERVICES

Design & Development of Plastic Injection Moulds.

Production of Precision Injection Moulded components.

Design & Development of Precision press Tools, Jigs & Fixtures.

Production of sheet metal components .

Design & Development of plastic Blow Moulds.

Extrusion & Injection blow moulded components.

Other customized production/machining works as per customer requirement.

OUR VALUABLE CUSTOMERS

V-GUARD INDUSTRIES LTD

AGAPPE DIAGNOSTICS

BPL MEDICAL TECHNOLOGIES PVT LTD

BPL TELECOM PVT LTD

MARICO LTD

DYNAMIC TECHNO MEDICALS PVT LTD

DOBERSUN PRODUCTS PVT LTD

POORNASREE EQUIPMENTS

PALAKKAD SURGICALS

SINICON CONTROLS PVT LTD

HYKON INDIA LTD

TOOL ROOM

Our Tool Room is well equipped with all types of conventional and CNC machines and skilled and experienced tool makers who have proved their efficiency in Designing and manufacturing of all types of Injection moulds, Unscrewing moulds, Hot Runner moulds, Blow moulds, progressive Tools, Jigs & Fixtures Etc. Our Moulds and Tools are widely being used in Medical & commercial industries.

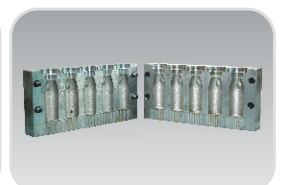

INJECTION MOULDING

We have wide range of Injection moulding machines from 50T to 300 T which are capable of processing 5 Ton material per day. We produce precision components which are used in Medical & commercial industries.

BLOW MOULDING

We have extrusion blow moulding & injection blow moulding machines which can process materials like HDPE, PP, PET etc. We are capable of manufacturing any types of bottles, our components are being widely used in Medical, Diary & Chemical Industries.
